Description

Make the Most out of your new HD Ready TV with the latest in HDMI cables.

Let Linx HDMI cables enhance your TV's performance against your standard connections. 24K Carat gold plated connectors, and silver soldered 99.99% oxygen free, coated and shielded cable ensure minimum signal degradation with maximum output.

High performance HDMI™ cable with a cable bandwidth of greater than 4.95 Gbps. For maximum performance from HDTVs, DVD players, including Blu-ray Disc™/HD DVD™ players, next gen gaming consoles and cable/satellite receivers. High speed cable ensures a high-end HD experience with true 1080p picture with vibrant color, deep blacks, and striking clarity.
